

Jaltest Marine Vessel Diagnostics

Jaltest Marine is an all-makes and all-systems diagnostics equipment developed to perform the most advanced vessel diagnostics and maintenance tasks in an easy and intuitive way.

Jaltest is not limited to reading fault codes on vessel systems, it also features bi-directional controls and guided troubleshooting.

- Reading and clearing of errors.
- System technical data.
- Wiring diagrams.
- Engine technical data.
- Service and maintenance data.
- Troubleshooting Guides. Troubleshooting step by step.
- Technical releases.

Additional advanced diagnosis functions are:

- Calibrations in engine, brakes, suspension, trim
- Parameter settings
- Programming of keys for jet skis

Jaltest Marine Kits

Choose your Jaltest Marine Experience

JALTEST MARINE FULL KIT

Diagnostics equipment aimed for nautical workshops where repair and/or maintenance services are performed in several types of vessels, such as: Inboard, Outboard and Jet Ski. This solution also includes diagnosis for vessel gensets. This wide coverage, as well as the additional diagnostic modules (Jaltest INFO, GRP, Troubleshooting), makes the 'Jaltest Marine Full Kit' the Industry-Leading diagnostic solution.

JALTEST MARINE BOAT KIT

This tool includes every function available in Jaltest and it is developed for all types of vessels. It is the perfect tool for those nautical workshops, dry docks, that perform construction, repair or maintenance works on vessels with inboard or outboard engines. The wide range of brands makes it the world's leading tool in All Makes Diagnostics.

JALTEST MARINE INBOARD KIT

All the power of Jaltest is focused on inboard vessels. If your business is dedicated exclusively to this vessel, here you will find the tool you need.

JALTEST MARINE OUTBOARD KIT

Jaltest diagnosis software provides an easy and accurate way to connect to these types of engines. The wide range of brands combined with essential functions for outboard engines repair and maintenance.

JALTEST MARINE JET SKI KIT

Tool specifically aimed at this type of vessels with all Jaltest diagnosis functions, technical information, key programming. These features make it an essential tool for all the companies of Jet Ski repair and maintenance.

This wide coverage makes this the most powerful diagnosis unit on the market today.

- ✓ Coverage for Inboard & Outboard vessels, Jet Skis and Generators
- ✓ All protocols and standards are supported
- ✓ Intuitive and easy-to-use software interface
- ✓ Wireless Bluetooth connection
- ✓ Systems calibrations and keys and remote controls programming
- ✓ Automatic detection of systems and Fault codes
- ✓ Troubleshooting by Symptoms and Fault code troubleshooting
- ✓ Tree diagrams for assistance in repairing the fault
- ✓ Integrated technical information, wiring diagrams and technical documents
- ✓ Programmed updates and latest development implementations
- ✓ Call-center for technical and product support
- ✓ Training and E-learning
- ✓ GRP - Garage Resource Planning
- ✓ Vessel brand customization
